The festive season is a time for love and togetherness – but in the joy of feasting, we often forget the issue of food waste. Manna Pot is taking a mindful step forward by committing to reduce waste during this season of abundance.

We've partnered with TreeDots, a local Singapore start-up dedicated to sustainability through the rescue of "imperfect" but perfectly edible ingredients. With their help, our menus feature thoughtfully sourced produce that may have otherwise gone to waste – so you can do your part simply by enjoying every delicious bite.
